*Reasons for Allowance*

The following is an examiner's statement of reasons for allowance:

Claims 1-13 are allowed because the prior art does not teach or suggest a method/tool for verifying a digital circuit design; the method, among other things, having the step of determining a reduced RTL model by reducing widths of signals occurring in a non-reduced RTL model to produce the reduced RTL model that retains the signal properties of the non-reduced RTL model which are to be checked. This technique can be applied in high level equivalent checking and high-level simulation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

*Conclusion*

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Dinh whose telephone number is (703) 305-5662. The examiner can normally be reached on Monday to Friday from 8:30am to 5:00pm.
